

V-MAX

CABINET PARTS SECTION

READING A PARTS LIST

- I **ITEM NUMBER** is found in two locations:
 - A. It is on the drawing plate, and identifies the part and its location;
 - B. The same number is in the parts lists and ties the two together.

 - II **PART NUMBER** is the part number that has been assigned to a specific part by Vendo, for easier identification.

 - III **QUANTITY REQUIRED** relates to the amount required of a part, or will be indicated by "A/R" as required to attach it to another part.

 - IV **PART NAME AND DESCRIPTION** is the general description for the part, for easier identification when ordering a like part.

 - V **HARDWARE** is identified by a letter in a hexagon. Refer to hardware list section for description and part numbers. See pages C-4 and C-5.
-

The example below will show how the parts are listed in the parts lists:

1. **VEND MOTOR ASSEMBLY:** This is the main assembly name, and any replaceable parts will be indented below the assembly.

2. **RETAINER CAM:** This is an individual part, and will be indented. These indented parts can be ordered separately, so you do not need to order the entire assembly.

3. Whenever an assembly is ordered, all the parts that are indented will be included in the assembly. Any hardware will be listed next to their corresponding parts.

4. Any parts that may be ordered separately will not have any indented parts listed below them.

"V-MAX" VEND MOTOR ASSEMBLY

ITEM NO.	DESCRIPTION	QTY REQ'D	PART NO.
1	VEND MOTOR ASSEMBLY	-	1115821
2	RETAINER CAM	1	1113244
3	TIMING CAM	1	1113236
4			

If an asterisk is listed below the parts list, it is an indication that special information is noted. There may be more than one asterisk (*) (**) (***) denoting special notes.
